MAUGOST OKORE

SENIOR SOFTWARE ENGINEER

PERSONAL PROFILE

Strategic and detail-oriented Senior Flutter Developer with 6 years of specialized mobile experience and over a decade in software engineering. Expert in architecting high-scale e-commerce and fintech solutions, with a proven track record of increasing user engagement through innovative features like Native Virtual Try-On (VTO) integrations. Proficient in bridging Flutter with Native Swift and Java via platform channels to deliver high-performance 3D rendering and complex camera functionalities. A full-stack thinker currently leveraging Dart (Relic) for backend systems, committed to building seamless, end-to-end user experiences.

SKILLS AND EXPERTISE

- **Core Frameworks**: Expert-level proficiency in Flutter and Dart for high-performance iOS and Android applications.
- **Native Integration:** Advanced mastery in Method Channels for integrating Swift and Java native SDKs.

WORK EXPERIENCE

Eyewa (Dubai-Remote)
Senior Software Engineer | 2022 - 2026

- **Greenfield Development**: Designed and implemented a high-performance e-commerce mobile app from scratch using Flutter.
- **Native VTO Integration**: Integrated BytePlus Native SDKs using Swift and Java via platform channels, increasing user engagement by 25%.
- **Full Funnel Ownership**: Created and maintained the complete Cart and Checkout journey, ensuring secure and seamless transaction flows.
- **Technical Research**: Investigated and prototyped VTO rendering solutions using Banuba and DesignHub for optimized 3D eyewear visualization.
- **Feature Optimization**: Deployed Virtual Try-On features across PLP, PDP, and Homepage, resulting in a 15% overall increase in mobile app engagement.

DeyChop & Along (Nigeria-Remote)
Senior Software Engineer | 2025 - 2026

- **DeyChop**: Architecting a comprehensive food delivery ecosystem including dedicated apps for Vendors, Riders, and Customers.
- **Along**: Developing a peer-to-peer (P2P) logistics solution focused on real-time item tracking and route efficiency.
- **Full-Stack Dart**: Implementing backend services for e-commerce platforms using Dart (Relic) to achieve a unified language stack.

SKILLS AND EXPERTISE

- **Specialized Tech**: Extensive experience in Virtual Try-On (VTO) integration using BytePlus and DesignHub.
- **Architecture**: Deep knowledge of state management using Providers, BLoC, and Riverpod.
- **E-commerce & Fintech**: Proven track record in building complex checkout journeys and secure international remittance systems.
- **Backend & Data**: Skilled in Supabase, Firebase, and Appwrite for scalable cloud-based data solutions.
- **Full-Stack Development**: Emerging expertise in server-side development using Dart (Relic) for unified app ecosystems.

EDUCATION

Bachelor of Engineering | 2011 - 2016

Michael Okpara University of Agriculture, Umudike University.

WORK EXPERIENCE

Wiremoney (Australia-Remote)
Senior Software Engineer | 2022 - 2024

- **Cross-Border Payments**: Developed and maintained fintech applications facilitating international money transfers between Nigeria and Australia.
- **Scalable Solutions**: Built secure payment processing modules that achieved over 1,000+ downloads on the App Store and Google Play.

Wyrr (Canada-Remote)
Senior Software Engineer | 2022 - 2024

- **Cross-Border Payments**: Developed and maintained fintech applications facilitating international money transfers between Nigeria and Canada.
- **Scalable Solutions**: Built secure payment processing modules that achieved over 1,000+ downloads on the App Store and Google Play.

SARL GLOBA | Playground (France-Remote)
Software Engineer | 2021 - 2022

- **Multimedia Integration**: Developed and published mobile applications featuring Video and Voice calling alongside embedded JavaScript games for children.
- **Cross-Platform Delivery**: Managed the end-to-end publishing process for both iOS and Android platforms.
